

IN PIZZA
WE TRUST

OURS IS A PIZZA THAT IS TREATED WELL.

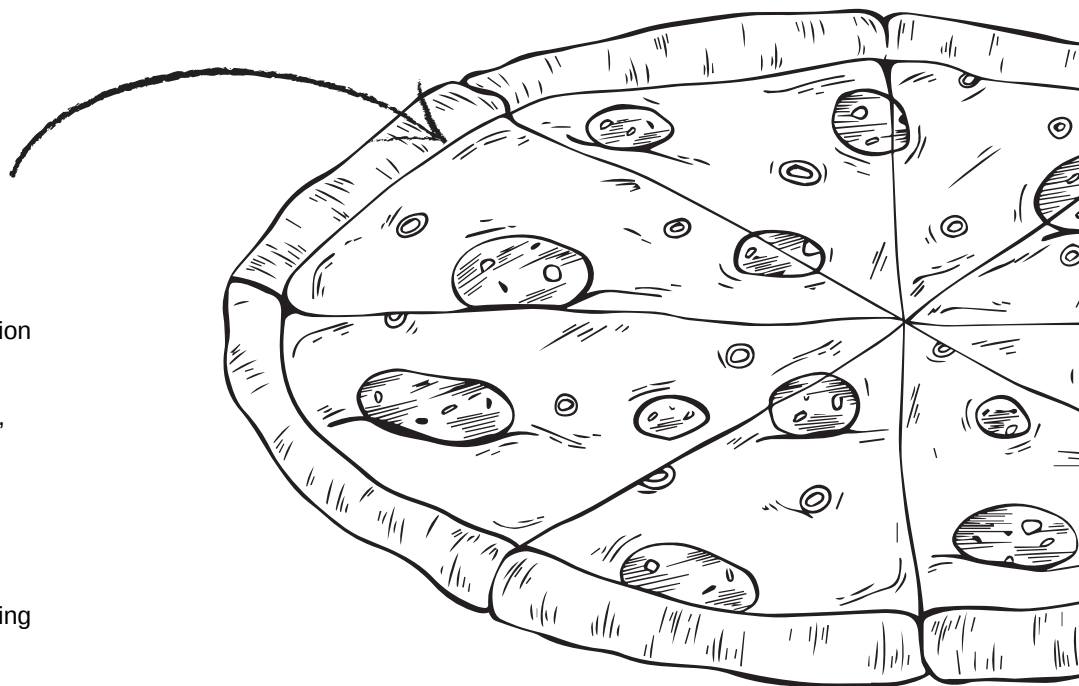

It requires flour worked with stone mills,
not just any treatment.

Its dough is obtained from the combination
of traditional flours and kamut flours

It rests for seventy-two hours, of course,
without the use of mother yeast.

He wants only the best ... organic
ingredients.

The result is a pizza without compromising
taste, lightness and digestibility.
